

Field Report

Roberto Tjesse Beth

General impression of my research stay abroad

My stay at the Texas A&M University has been an one in a life time experience. The United States is incredible. The landscapes, the mix of cultures and the possibilities they offer in terms of academic development are amazing. If I had to describe the overall experience in 3 words I would use big, friendly and intense. Big because it all looks out scaled: bigger distances, bigger meals, big projects. Friendly because absolutely all the working colleagues and people we met along were nice. Preconceptions were broken and friendships were made. Intense because your senses get awakened by tastes in exotic dishes and your eyes opened by amazing landscapes.

It has been a great experience which could not have been possible without the help and support of my supervisors Prof Dr. Anthony Filippi and Prof Dr Inci Güneralp. Their knowledge is immensurable and their supervision was excellent. The facilities provided by the Texas A&M University were at the top of the list. In case any prospect student needs some contact details, find them here below:

Prof Dr Anthony Filippi

Phone: (979) 845-5744

Email: filippi@tamu.edu

Office: O&M 707B

Address:

810 O&M Building

Department of Geography

Texas A&M University

MS 3147

College Station, Texas 77843-3147

Prof Dr Inci Güneralp

Phone: (979) 845-7155

Email: iguneralp@geos.tamu.edu

Office: O&M 803F

Address:

Texas A&M University

MS 3147

College Station, Texas 77843

PhD Candidate Cesar Castillo

Email: castillocesar@tamu.edu
