Re: Stay in Austria, Summer 2017

Summary

My visit to Austria this summer was a memorable and enjoyable experience. Over all I really enjoyed my time and the opportunity. I will have great memories of the experience for years to come and I look forward to my next opportunity to visit Carinthia.

The Fachhochschule Kärnten, Carinthia University of Applied Sciences, was a very unique and forward-thinking institution. Their focus on new technologies and the diverse student base made my time there interesting and compelling.

Gernot Paulus was a pleasure to work with and went out of his way to support the research I was conducting. I hope future Marshall Plan recipients are fortunate enough to have his sponsorship and mentorship during their stay.

I look forward to completing the line of inquiry that brought me to Austria and look forward to a continued collaboration with Gernot as a fellow scientist in the geo-informatics domain. The research in this space and in particular at FH CUAS is very exciting.

Thank you for the opportunity and experience,

Jesse Sprague
